Account alarm: Configure in just a few steps

1. Log on to online banking. The alarm option is available under “online banking” → turnover (“Umsätze”).

2. For initial configuration, you must enable the account alarm option. Tap enable (“Zur Freischaltung”).

3. Use the checkbox to confirm you have read the legal information and documents. Tap enable (“Freischalten”) and confirm activation by entering your TAN.

4. These account alarms are available:

   - Please select...
   - Please select...
   - Wecker für Girokonto
   - Kontostandeswecker
   - Umsatzwecker
   - Limitwecker
   - Dispowecker
   - Gehaltswecker
   - Kartenwecker
   - Überweisungswecker

To configure a new alarm, select an alarm type from the list and click on “*+”.

5a. How to set an account balance alarm:

   Enter a name for the alarm. Select the account for which you wish to set an alarm and enter a notification period.

   Select an existing email address or push notification* using Notification to (“Benachrichtigung an”). If you wish to create a new recipient address (email or push notification), tap “*+”.

   If you have just created the required recipient address or if it already exists, select it from the list and tap Next (“Weiter”).

   *Push notification: A message that is sent to you via the Sparkasse app.

5b. Select an account for the notifications.

5c. Check the details and activate the account alarm by tapping Set alarm (“Wecker stellen”).
